HOW TO CHECK YOUR TENSION

Before you knit these designs check
your tension carefully. Take a pair
of No. 9 needles, cast on 23 stitches
and work in stocking stitch—1 row
knit, 1 row purl—for 31 rows. Cast
off; press lightly on wrong side. The
tension should be $5\frac{3}{4}$ sts. and $7\frac{3}{4}$ rows
to one square inch, and the knitted
square should measure 4 inches each
way. If the square is bigger your work
is too loose; try a size finer needle.
If it is smaller, your work is too tight;
try a size coarser needle.

If you knit to the correct tension in
stocking stitch, you will knit natur-
ally to the correct tension for any
stitch in this booklet. If you alter the
needles to obtain the correct tension
in stocking stitch, corresponding
alterations must be made to the
needles throughout.

WASHING DOUBLE KNITTING

As these designs use substantial
weights of double knitting wool,
special care in washing and drying is
essential if they are to keep their
shape. Surplus water should be
removed as quickly and as thorough-
ly as possible, (a light wringer is
permissible); while the garments are
wet they should be continually sup-
ported and should on no account be
hung up to dry.
